RE: Domestic Water / Sanitary Sewer Billing

Dear Customer,

On May 3, 2021 the Powhatan County Board of Supervisors adopted O-2021-05 modifying the fee schedule for Powhatan County. The fee schedule included an increase in the commodity rate for both water and wastewater as proposed by department staff. The increase in the water rate is due to increases from the County's water purveyor, Chesterfield County. The increase in the sewer commodity will help to reduce the subsidizing of the sewer system from the General Fund. The new rates will be effective July 1, 2021. The new rates will appear on the September bills and are as follows;

	Current Commodity Charge	New Commodity Charge
Water	\$6.73	\$7.07
Sewer	\$6.61	\$7.00

Please contact this office with any questions or concerns you may have.

Sincerely,

Ramona Carter, P.E., MPA  
Director of Public Works
